

# PRIVACY POLICY

## Introduction

The purpose of this document is to outline Vitalia Healthcare complies with its confidentiality and privacy obligations. As an organisation, Vitalia Healthcare's principal concern is and always will be the health of patients who visit our practice. A high level of trust and confidentiality is required to ensure the confidence of the patients we serve. Patients will be assured that:

- Their privacy will be protected when visiting the Medical Centre;
- The information collected and retained in our records is correct and up-to-date and;
- That they can access their information for review.

## Health information

Vitalia Healthcare recognises that the information we collect is often of a highly sensitive nature and as an organisation we have adopted the highest privacy compliance standards relevant to Vitalia Healthcare to ensure personal information is protected. For administrative and billing purposes, and to enable the patients to be attended to by other medical practitioners at Vitalia Healthcare, patient information is shared between the medical practitioners and other health providers at the medical centre. Vitalia Healthcare and the medical practitioners may collect personal information regarding patients (including health information) for the purpose of providing medical services and treatment. Personal information collected will generally include:

- the patient's full name, address, telephone number and Medicare number,
- current drugs or treatments used by the patient,
- previous/current medical history, including, where clinically relevant, a family medical and social history, and
- the name of any health service provider or medical specialist to whom the patient is referred, copies of any letters of referrals and copies of any reports back.

## Vitalia Healthcare may access information:

- provided directly by the patient;
- provided on the patient's behalf with the patient's consent;
- from a health service provider who refers the patient to medical practitioners providing services at or from Vitalia Healthcare, or from health service providers to whom patients are referred.

## Use or disclosure of personal information Personal information collected by Vitalia Healthcare may be used or disclosed:

- for the purpose advised to the patient at the time of collection of the information,
- as required for delivery of the health service to the patient,
- as required for the ordinary operation of our services (i.e. to refer the patient to a medical specialist or other health service provider),
- as required under compulsion of law, or
- where there is a serious and imminent threat to an individual's life, health, or safety; or a serious threat to public health or public safety.

- Vitalia Healthcare may use or disclose personal information for quality assurance, training, billing, liaising with government offices regarding Medicare entitlements and payments and as may be required by the Medical Centre's insurers.

### **Accuracy of your information**

Vitalia Healthcare is committed to ensuring your information is accurate and has processes in place to ensure that the accuracy of this information is maintained. If you believe that the personal information the Medical Centre holds about you is inaccurate, please inform Medical Centre staff when next attending the Centre. Security of information collected other than as described in this Policy or permitted under privacy principles, Vitalia Healthcare uses its reasonable endeavours to ensure that identifying health information is not disclosed to any person unnecessarily or irresponsibly. Due to the sensitive nature of the information collected by the Medical Centre to provide its services, extra precautions are taken to ensure the security of that information. Information may be stored electronically and / or in hard copy form. All electronically stored files are password-protected on several levels, and regular backups of data are performed. Vitalia Healthcare requires its employees to observe obligations of confidentiality in the course of their employment with all staff/contractors signing Confidentiality Agreements.

### **How long are medical records kept?**

Vitalia Healthcare keeps health information for a minimum of 7 years from the date of last entry in the patient records unless the patient is / was a child in which case the record must be kept until the patient attains or would have attained 25 years of age.

### **Accessing your information**

On request, you may have access to your medical record held by Vitalia Healthcare, except in circumstances where access may be denied under the 'Privacy Act' or other laws. For example, access can be denied when letting a patient see their records would pose a serious threat to the patient's life or health, or the life or health of someone else (such as a relative, the health service provider, staff or other patients). The threat must be significant, for example where there is a serious risk the patient may cause self-harm or harm to another person if they saw the information. The threat can be a risk of danger to physical or mental health but does not need to be imminent – it can be a serious threat that might occur sometime after access is granted.

### **Can I transfer my medical records to a new medical practitioner?**

Patients have the right to attend a medical practitioner of their choice and are free to leave a practice and attend another if they wish.

### **How do I arrange this?**

There is a professional obligation for a medical practitioner to provide a new treating medical practitioner with all the information that they need to take over a patient's care. This is usually done by the patient completing a 'transfer of file' form and producing an original source of identification for the

receptionist to make a copy of. When a patient requests that their health records be transferred to a medical practitioner outside Vitalia Healthcare, the medical practitioner has an obligation to provide a copy or summary of the patient health record in a timely manner to facilitate care of the patient. For medico-legal reasons, our practice retains the original record and provides the new medical practitioner with a summary or a copy. If a summary of the patient's health record is provided to the new medical practitioner, a copy of the summary should be kept on file for record purposes. A patient can also have a copy of his/her medical records transferred by asking the new medical practitioner to arrange for the transfer of records from the previous treating medical practitioner. The patient will still have to attend Vitalia Healthcare to fill in appropriate forms.

### **Can the doctor charge for the handing over of medical records?**

Some medical practitioners may charge a fee for handling and copying their records to cover the administrative costs involved. The previous medical practitioner may charge a fee for providing a summary, especially if a patient's medical history is long and/or complex.
